Drum Hill Physical and Sport Therapy, 10 Jean Avenue Unit 10, Chelmsford MA 01824

Patient Authorization for Treatment
For Physical Therapy (P.T.) and Occupational Therapy (O.T)

P.T./O.T. therapy is patient care services provided in response to a wide range of medical care needs of out patient of all ages regardless of gender, color, race, creed, national origin or disability.

The purpose of P.T./O.T. therapy is to treat disease, injury and disability by elevation, examination, testing and use of rehabilitation procedures, manipulations, massage, exercises, and physical agents including, but not limited to mechanical devices, heat, cold, light, water, electricity and sound in the aid of establishing a physical therapy functional diagnosis and treatment program; to obtain the information needed in evaluation of patients to prevent or minimize residual physical disability. P.T./O.T. can aid the patient in achieving their maximum potential within their capabilities, and accelerate convalescence and reduce the length of functional recovery. P.T./O.T. practice includes, but is not limited to, patient education, electrical stimulation, phonophoresis, iontophoresis, and application of topical medications, splinting and biofeed services.

You are not expected to experience any increase in your current pain level or discomfort. You should attempt to stop each procedure before you experience any increase in your current level of pain and discomfort and discuss this with your therapist.

You are expected to cooperate fully with the evaluation and stop any test or treatment before any increase in your current level of pain and discomfort. Because of the nature of services provided you may be ask to partially disrobe, in which case a hospital gown will be provided. If this is necessary, your privacy and dignity will be considered at all times by the staff. Should you feel uncomfortable or embarrassed, you may refuse, stop the procedure and/or request another therapist.

There are certain inherent risks with physical therapy and occupational therapy treatment because you will be asked to exert effort and perform activities with increasing degrees or difficulty which could cause an increase in your current level of pain and discomfort, inability to function or an aggravation of your current injury or problem. There is also a possibility that you could experience a new injury, but this risk is small and you can control any procedure which you feel may be harmful by stopping it if you feel any increase in your systems or sense new symptoms developing. Your physical and/or occupational therapist will take every precaution to ensure that you are protected from any potentially hazardous situation. You will never be forced to perform any procedure and/or comply with a treatment that you do not wish to perform and/or have performed on you.

Based on the above information, I agree to cooperate fully and to participate in all P.T./O.T. procedures. I give my consent to be evaluated and treated in physical therapy and/or occupational therapy. I acknowledge that I have read and received a copy of the Authorization for treatment letter. I authorize release of medical information to appropriate third parties.
